**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 2-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: the reasons for allowance have been discussed in the previous Office Action.

The Examiner notes the closest art to:

US 20090192904 which teaches linked account and appears relevant to the claims, but does not constitute prior art, US 20020099635 which teaches a primary account holder can restrict secondary account holder transactions based on merchant codes on a list, US 20020087441 which teaches separating transactions based on MCC (merchant codes), US 5469118 which teaches the table can associate items with accounts (for protection/security) in a smartcard that has separate accounts stored thereon, US 6915277 which teaches a dual mode card that can be used as a private label network (specific store card) and a bankcard/generic credit card, where based on the account number it is determined that it can be used for both types of cards, but based on the merchant, a specific one of the private label/bankcard is chosen, US 7509289 which teaches that MCC are 4 digit codes sent by merchant terminals with the authorization request and that non approved MCC's can be refused even if the charge is within credit card limits, and US 6901387 which teaches that transaction can be approved/declined based on SIC/service identifiers of the merchants, but the prior art does not teach at least the limitations of the user terminal transmitting a transaction terminal ID to the main computer

system, the common account limitations as claimed, and the determination regarding the association as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
